INTRODUCTION

Arrow Architectural Systems (P) Ltd. started its activities in 1998, providing aluminium solutions with perplexing range of options. The company is based on a firm belief in team work, honesty and integrity along with a strong commitment to quality workmanship and commitments for the projects.

Today, **Arrow Architectural Systems (P) Ltd.** has enhanced its technical from various consultants from India and abroad with upgraded quality an technology. It had executed different types of projects like **Shopping malls, Commercial complexes, Hospitals, Multiplexes, Educational institutions, and many Residential and Non-residential buildings.**

For **Arrow Architectural Systems (P) Ltd.** every project is a new experience with specific demand for **aluminum sections, glass types, shapes, strength, dead load and wind load as per the requirements.** The companies' success comes from the belief that a "successful project depends upon customer satisfactions", which had increased its goodwill amongst the best Architects, builders, consultants and other people who are directly or indirectly related with it in India and throughout the world. Each and every project is considered as a new experience which ultimately puts another star before the company's name.

The adoption of latest technology and team of dedicated and experienced staff, using world's finest processing system provides the company with the competitive strength which is difficult for its competitors to imitate.
